

The Friendship Song. C

C7+Em F C7 G Dm
Birds fly into the sunset, like a child's song upon the wind, as a blind man starts on his
Em Dm G
journey that his close friends can never begin.

C7+Em F C7 G Dm
It seems times to may not be worth it, but we reach out for the closest star. We befriend
Em Dm
those who can restore us and bring peace back to where we are.

C F C F
Because your friends forever will leave you never, a friend forever will leave you never.
C F C F Em F Em
Hope's transcending, it's never-ending. Find a friend, and that's where your journey
C
begins.

C F C
The wishes of your lifetime are seldom ever told and friends are like a lifeline to help us
F Em F C G Em
through the cold. So if it's ever seeming that hope's come to an end, then take your
F C G C
heart's own dreaming and share it with a friend.

(chorus)

C7+Em F C7 G Dm
Remember the days once together: they reveal what we truly are, through the dark nights
Em Dm G C7
and stormiest weather we've both come so very far. True friendship has brought on the
F C7 G Dm Em Dm
sunrise, and truth's light comes shining through. After the darkness, I realize that I never
F G C
found another friend like you.
